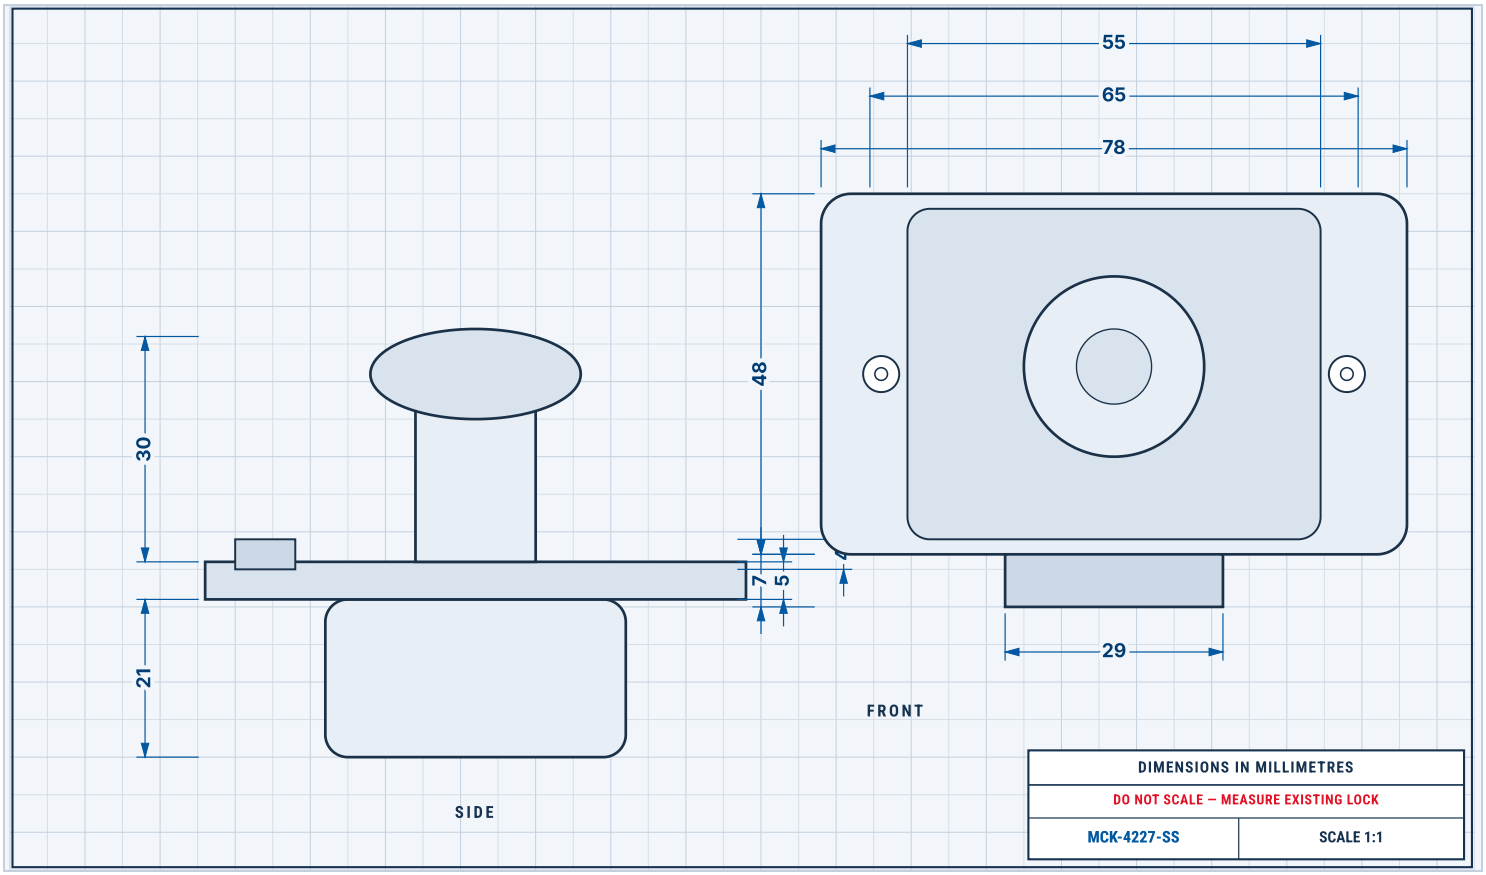
P/N MCK-4227-SS

Stainless Steel Lift Lock (Temporary Suffix)

Cerradura de elevación de acero inoxidable (sufijo temporal)

Stainless lift / turn lock with a large round knob. The catalog also labels this product 4227 — the same code as the plastic push lock MCK-4227. The "-SS" suffix is temporary only; get the real factory code before quoting or freezing the part number.

Genuine OEM equivalent available on request.



REPLACEMENT DIMENSIONS

Part number	MCK-4227-SS (temporary suffix — catalog code is 4227)
