P/N MCV-11401504

SCBA Cylinder Valve – M22×1.5

Válvula de cilindro para ERA – M22×1.5

Hand-wheel cylinder valve for 300 bar breathing-air cylinders used with positive-pressure SCBA sets. Opens and closes the air supply and carries an over-pressure safety (burst) diaphragm. Thread connection M22×1.5; G5/8 version available.

KEY FEATURES

- Hand-wheel on / off control of the air supply
- Over-pressure safety diaphragm
- Rated for 300 bar breathing-air cylinders
- M22×1.5 thread connection (G5/8 version: MCV-11401505)
- Fits the M22×1.5 cylinders MCY-20304040 / MCY-20304017

PRODUCT

TECHNICAL SPECIFICATIONS

Part number	MCV-11401504
Type	Cylinder valve, hand-wheel operated
Thread connection	M22×1.5
Working pressure	300 bar (30 MPa)
Safety device	Over-pressure diaphragm; releases at approx. 25 % above rated working pressure Per OEM user manual
Used with	MCY-20304040 (6 L steel) / MCY-20304017 (6.8 L composite)
Alternate thread	MCV-11401505 — G5/8

SCBA SPARE PART | 300 BAR | M22×1.5

Genuine OEM equivalent available on request. After fitting or repair the valve must be pressure-tested at 300 bar before use. Confirm thread before ordering. Illustration for reference; appearance may vary.
