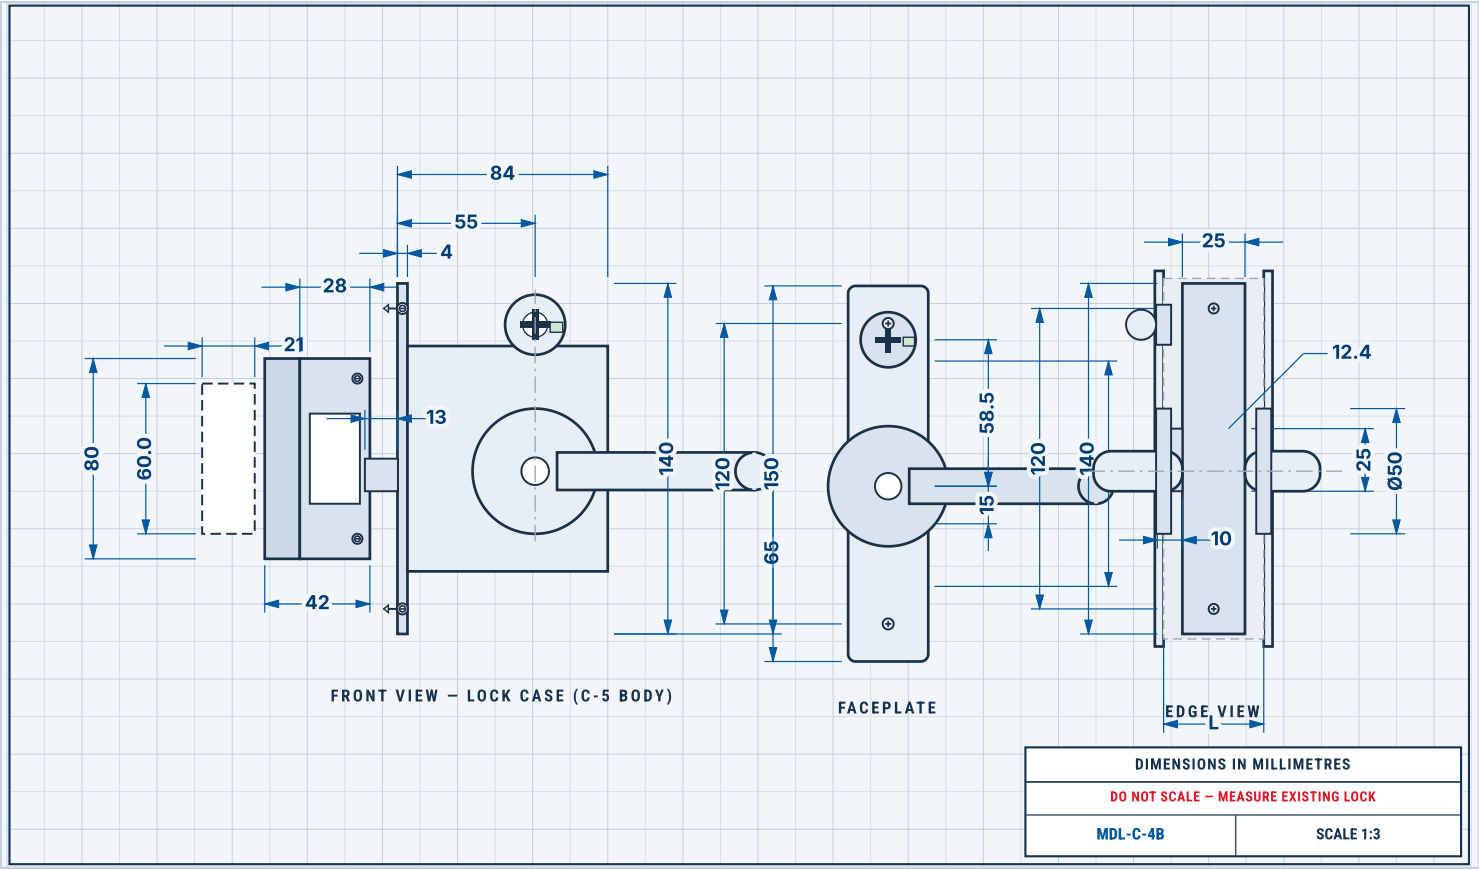
P/N MDL-C-4B

Marine Toilet Lock, Long Faceplate, Occupancy Indicator

Cerradura de paso con placa larga e indicador de ocupación

Catalog: passageway lock (C-5) with an occupancy indicator and long faceplates. Handle free in normal use; inside knob 90° shows red outside and the handle will not open; still openable with the key. Door thickness 36–45 mm. Built on the C-5 body (forend 140 / 120), not a C-1 or C-4 mortise case.

Genuine OEM equivalent available on request.



REPLACEMENT DIMENSIONS

Part number	MDL-C-4B
Type	C-5-body toilet lock, long faceplate, occupancy indicator
Important	C-5 body (forend 140 × 25, centres 120) — not a C-1 / C-4 190 / 170 case
Door thickness	36–45 mm (L on the edge view is not numbered)
Backset	55 mm
Lock case	84 mm depth (incl. forend); case height 90 mm
Forend	140 × 25 mm; thickness 4 mm; fixing centres 120 mm
Faceplate	150 mm overall; centres 120 mm; indicator-to-handle 58.5 mm
Strike / dust box	80 mm high × 28 mm, 42 mm incl. lip; dust box 21 × 60.0 mm (typography looks like 600; scale shows 60.0)
Latch	Throw 13 mm; 65 mm from forend bottom; face 12.4 × 25 mm; projection 10 mm. Spindle / handing / L not labelled.

REPLACEMENT FIT — MEASURE YOUR EXISTING LOCK

- Confirm a C-5-sized body (forend 140 / 120), not a C-1 / C-4 190 / 170 case
- Door thickness (36–45 mm; L is not numbered) and backset 55 mm
- Faceplate 150 mm, centres 120 mm, indicator-to-handle 58.5 mm
- Strike 80 × 28 / 42 mm and dust box 21 × 60.0 mm
- Latch throw 13 mm and 10 mm edge projection
- Confirm an occupancy indicator is required; spindle and handing (not labelled)

KEY FEATURES

- Built on the C-5 passageway body with long faceplates — not a C-1 or C-4 190 / 170 case
- Occupancy indicator: inside knob 90° shows red outside and locks the handle
- Door can still be opened with the key
- Same install geometry as MDL-C-1F (measure before treating as interchangeable)
