P/N MFM-10104646 · IMPA 331137

Full Face Mask – Spherical Panoramic Visor

Máscara facial completa

Positive-pressure full face mask for use with a self-contained breathing apparatus (SCBA). Internal mask pressure is held slightly above the surrounding atmosphere to help keep contaminants from entering. Silicone-rubber facepiece with a spherical panoramic visor, a built-in inner oro-nasal mask, and an anti-fog airway that directs incoming air across the visor. Quick plug-in connection to the air supply (demand) valve, rotatable 360°, with a neck strap for carrying.

KEY FEATURES

- Spherical panoramic visor — impact-resistant, high- and low-temperature resistant
- Silicone-rubber facepiece with a wide sealing edge for a comfortable, airtight fit
- Built-in inner mouth-and-nose mask to limit CO_2 and moisture in the visor space
- Anti-fog air path: dry incoming air is blown across the visor; exhaled air exits through the exhalation valve
- Quick plug-in air-supply valve connection, rotatable 360°
- Adjustable rubber head harness and neck strap

PRODUCT

TECHNICAL SPECIFICATIONS

Part number	MFM-10104646
IMPA	331137 (respirator mask, full face, silicon rubber)
Type	Positive-pressure full face mask, spherical visor
Facepiece	Silicone rubber
Visor	Spherical panoramic window; impact-resistant; high- and low-temperature resistant
Inner mask	Built-in oro-nasal (mouth and nose) mask
Anti-fog	Incoming air directed across the visor; exhaled air isolated by the inner mask
Connection	Quick plug-in to the SCBA air-supply valve; 360° rotation
Head harness	Adjustable rubber head harness; neck strap
Classification	EN 136 Class 2 — full face mask for general use
Standards	EN 136:1998 incl. AC 1999 & AC 2003; EN 137:2006; ISO 23269-2:2011 Tested as the facepiece of a complete SCBA
Approval	DNV MED / 3.7, as the facepiece of a fire-fighter's SCBA
Application	Shipboard fire-fighter's outfit; positive-pressure SCBA

EN 136 CLASS 2 | EN 137:2006 | ISO 23269-2:2011 | DNV MED / 3.7 | IMPA 331137

Genuine OEM equivalent available on request. Confirm valve compatibility with the SCBA set in service before ordering. Illustration for reference; appearance may vary.
