P/N MDL-C-5B

Marine Passageway Door Lock (C-1-size case)

Cerradura de paso, cuerpo tipo C-1

Passageway lock with a single inclined latch, using a C-1-size mortise case (no deadbolt; unused cylinder hole in the case). Catalog text says the installation size is the same as C-1. The drawing clearly labels the backset 54 mm, not the C-1 value of 55 mm. This sheet prints 54 mm and the conflict should be checked against the existing door. Door thickness 36–45 mm.

Genuine OEM equivalent available on request.
