P/N MLM-82006

Door Distance Limiter / Stay, Damper Body

Limitador de distancia / retenedor de puerta, cuerpo amortiguador

Shorter stay with a cylindrical knurled or ribbed mid-body, different from the 82001–82003 telescopic family. Overall length 410 mm, left-end section 20 mm; no separate inner length is labelled. Catalog English is written “DistanceLimiter”. This body is closer to a damper stay — confirm function with the vendor. Material is not stated. OEM codes 82004 and 82005 do not appear in the catalog.

Genuine OEM equivalent available on request.
